

## Nexus® and Shark® Meter Training

**When:** November 13<sup>th</sup> - 14<sup>th</sup>, 2018  
9:00AM to 5:00PM (please arrive at 8:30 am to set up and check in)

**Where:** The Inn at Great Neck  
30 Cutter Mill Road  
Great Neck, NY 11021  
(Across from the Great Neck LIRR Station)

**Cost:** **Free** (not including hotel and transportation)

**Course Benefits:** This course will provide both the novice and experienced user with a clear and concise understanding of the full functionality of the Nexus® and Shark® family of meters. Networking with other utility users will be an added course benefit.

**Who Should Attend:** Substation, Relay Protection, PQ Engineers & Technicians, Metering Engineers & Technicians, Project and Plant Engineers, and Energy Managers. Generation and Transmission applications will be covered.

### Course Contents will include, but are not limited to:

- Introduction and overview of the Shark® and Nexus® series meters' configuration, software, and features.
- Communicating with meters using a variety of available protocols.
- Programming, and understanding the terminology of, the meter's setup profile.
- Uploading and saving the profile, and working with it offline.
- Looking at and interpreting the real time data.
- Setting the Nexus® meter's time and reviewing the timing capabilities.
- Discussion of our DNP implementation and interfacing with other systems.
- Retrieving and analyzing data from the meter's memory.
- Enabling and disabling the passwords and learning what each of the password levels can and cannot do.
- Software Configuration and Features: Communicator EXT™ 4.0, Log Viewer, MeterManager EXT, and EnergyReporter EXT software applications.

### Requirements (what you should bring)

- Laptop computer running Vista, 7, 8, or 10 Operating System; 1 GIG RAM Minimum
- Must have functioning WiFi capability and capability to connect to an open network
- Please pre-install Communicator EXT™ 4.0 software, available from our website:
