Pre-wired Enclosure for 9S Base Meters
Model: EI-602U3010C13-1484

Features include:
- 13 jaw Form 9S meter socket
- NEMA type 3R indoor/outdoor enclosure
- 600 V Rated
- Comes equipped with a 10 pole FT switch terminal block - tin plated with color-coded handles
- Perfect for Shark® 270 socket meter and Nexus® 1262/1272 socket meters
- Supports all transformer-rated Form 9S meters
- Lockable cover

EIG offers a pre-wired enclosure to be used with the Nexus® 1262/1272 and Shark® 270 socket revenue meters, or any Form 9S base transformer-rated meter. This enclosure is perfect for either a retrofit or a new installation. Simply put the enclosure where you want it, install the socket meter into the pre-wired enclosure, then connect your current transformers and voltage references.

Specifications
- Size: W 12" x H 19-7/8" x D 4-3/8".
- Knockouts: (six) 3/4" x 1" x 1-1/4" in bottom, sides, back; (1) 1/4" x 5/8" x 7/8" in bottom.
